

# Manage My Mobiles - Branding

You can customise the appearance of the website to bring it in line with your company's or your customer's branding.

You can create a channel partner profile to apply to all companies or customise each site on a per Mobile Company basis.

To access the branding click the Actions button and select Manage Branding.

The screenshot displays the 'Company Management' interface. At the top, there are several filter fields: 'Partner Account' (set to 'XXXX - Gamma Test 1 - 44000169'), 'Company Name', 'Contact Email', 'Records Per Page' (set to 100), 'Contact Name', 'Manage My Mobiles Status' (set to 'Active'), and 'Max Results Returned' (set to 100). Below these filters is a search bar and three buttons: '+ Add', 'Manage Reseller Branding', and 'Download'. The main content is a table with 7 columns: 'Account Name', 'Company Name', 'Contact Name', 'Contact Email', 'Manage My Mobiles Status', 'Connect', and 'Action'. The table contains 7 rows of data. The 'Action' column for the third row, 'LSBranding3', has a dropdown menu open showing options: 'Edit', 'Delete', 'View', 'Login to Manage My Mobiles', 'Configure Manage My Mobiles', 'Manage Branding' (highlighted), and 'Cease Manage My Mobiles'.
