

Porting and Migration Notifications

We recommend that you sign up for porting notifications to keep track of your customers porting and migration activity.

To sign up, go to the Gamma Portal and select 'Reporting' then 'Subscribe to Notifications and Push Reports'

There are three notifications relating to ports and migrations:

Category	Subscribed	Type	Service	Classification	Action
Porting Desk (GNP) Alert	Yes	Alert Notification	Voice	Portal Notification Alerts	Actions ▾
Notification of Exports to other Network Providers from this Partner account	No	Account based notification	Voice	Account based notification	Actions ▾
Notification of transfers to other resellers from this Partner account	No	Account based notification	Voice	Account based notification	Actions ▾

Porting Desk (GNP) Alert - this will provide you with any generic service affecting notifications should they arise.

Notification of Exports to other Network Providers from this Partner account - this will notify you when your customer decides to export to another network provider.

Notification of transfers to other resellers from this Partner account - this will notify you when your customer decides to migrate to another reseller.
